After the training slots of the dedicated countries jet models weighting more than 25,0kg (take-off weight, wet) have to checked by means of an inspection flight.

Weight of the Jet Models:

In Germany a strict weight limitation of model airplanes is followed, which has to be in compliance with present regulations. The IJMC rules requested a dry weight of 20,0kg without any fuel, respectively 13,5kg for being accepted as a contestant.

If the A/C weight in wet condition (take-off weight) is exceeding a threshold of 25,0kg a local authorization is necessary to provide in a written and stamped format. The organizer is kindly asking the contestants to send the local authorization documentation one week in advance of the official start of the JWM in order to allow the organizer to register the respective models.

Latest Arrival time for entries:

- Latest arrival point in time for entries is Saturday 22nd, 2015 at 12.00am **sharp in time**
- Once the entry has arrived at the airfield a quick registration shall be performed

8. Transport of Model crates

The organization team has managed a general cargo company for model crates convey for a Door-to-Door shipping.

QCS (Quick Cargo Services) offers exclusively the transport of the model boxes from home up to the arrival at the airfield and the way back home as well as the way through customs. Each interested pilot is highly requested to get in touch with our focal point **Oliver Krautter** in Stuttgart (Germany) to discuss the terms and conditions of the transport. He will liase with one of his local agents in the various countries to organize your individual transport of the box towards Leutkirch.

Thanks to the on-site availability of the cargo company at the airfield upcoming questions or support requests from the clients can be solved very rapidly.
