

Registration Countries 2025

INFO about the Registration Countries 2025 file:

New Microsoft programs and updates set macro content in documents to deactivated.

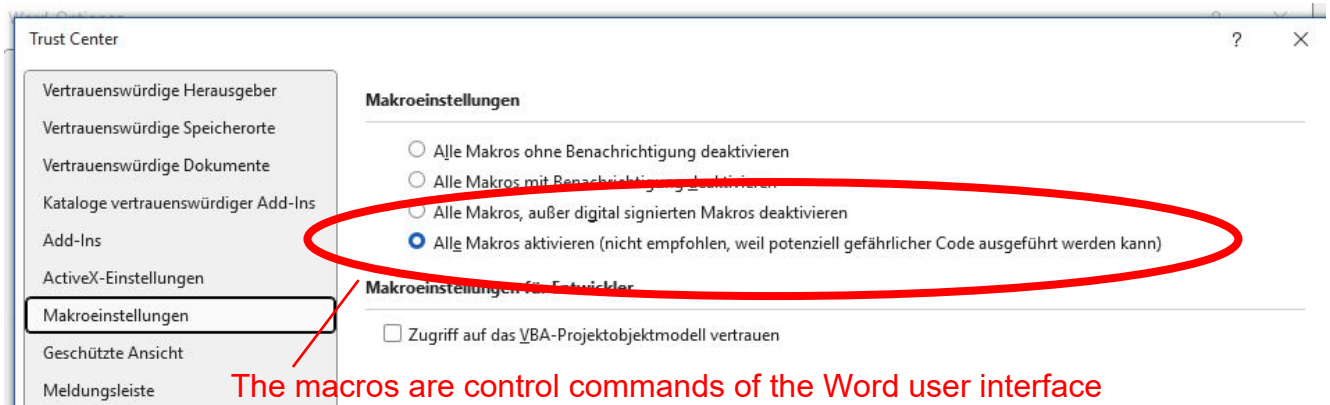

As the form contains macros, these must be ACTIVATED.
Depending on the program settings, you can proceed as follows.

1. Allow these in the file properties under Security

2. In the new version, Microsoft sets the macro properties to DISABLED during installation and updates.
Can be found when Word is open:

File > Options > Trust Center > Trust Center settings > "ENABLE all macros".
